ESSENTIALS OF PERSONAL FINANCIAL PLANNING Essentials of Personal Financial Planning was written to challenge the status quo by promoting personal financial planning (PFP) as a profession, not as a sales tool to gather assets under management or facilitate sales of insurance products. The book takes a comprehensive and integrated approach to PFP for accounting students, allowing them to view the profession through the lens of a CPA – with integrity and objectivity. This book systematically introduces the essentials of all the major PFP topics (estate, retirement, investments, insurance, and tax), as well as: The PFP process, concepts and regulatory environment. Professional responsibilities of a CPA personal financial planner and the requirements of the Statement on Standards in PFP Services. Time value of money concepts. The book then builds on these foundational concepts, showing their interconnectivity and professional opportunities, to provide a deeper understanding of PFP and its application. After reading this book, students will be able to apply the knowledge and skills gained from this course to have an immediate and long-term positive impact for themselves and for the clients they serve.

Internal and external forces such as globalization, global interconnectivity, automation, and other technological advancements are making today's supply chains highly sophisticated and complex. For organizations that produce, manufacture or distribute products, there's often a high level of interdependence and connectivity with their suppliers and their customers and business partners. Although the interconnectedness of these organizations can be beneficial (increased revenues, expanded market opportunities, and cost reduction), the ability of organizations to meet their goals is often increasingly dependent on events, processes, and controls that are not visible and are often beyond their control – such as a supplier's controls. That's why the demand for transparency in supply chains is now higher than ever before, and why this is the perfect time for you to help organizations assess their supply chain risks, evaluate the system controls within their manufacturing, production, or distribution systems, and communicate their supply chain management efforts to those with whom they do business. Accountants and

financial managers can also increase the credibility of the supply chain information communicated by the organization by providing an opinion on the organization's supply chain efforts. This guide enables the accountant and financial manager to examine and report on the description of a system for manufacturing, producing and distributing goods as well as on the controls within that system using a dynamic, proactive, and agile approach. It will show how to conduct this examination in accordance with the attestation standards. The guide may also be helpful when providing readiness assessments to clients, who are not quite ready for an examination level service and need help to get there. The guide also includes excerpts from the two distinct, but complementary sets of criteria developed by the AICPA to assist practitioners with SOC for Supply Chain engagements: the description criteria and the 2017 trust services criteria.

Considered the industry-standard resource and updated as of March 1, 2014, the Audit Sampling Guide summarizes applicable requirements and practices, and delivers "how-to" advice to help auditors apply nonstatistical and statistical sampling. The guide includes case studies illustrating the use of different sampling methods, including classical variables sampling and monetary unit sampling, in real world situations. New in 2014, a detailed case study of the application of classical variables sampling with the use of software has been included as an appendix. The appendices also include sampling tables and similar tools, as well as other sampling considerations. Packed with information on sampling requirements and sampling methods, this Guide is an indispensable resource.

The Accounting and Review Services Committee (ARSC) has issued Statement on Standards for Accounting and Review Services No. 21, Statements on Standards for Accounting and Review Services: Clarification and Recodification. The issuance of SSARS No. 21 represents a major milestone in the ARSC's project to clarify and revise the standards for reviews, compilations, and engagements to prepare financial statements. To assist readers to easily locate information, a detailed table of contents is provided at the beginning of the SSARS. This statement recodifies and supersedes all outstanding SSARSs through No. 20, except SSARS No. 14, Compilation of Pro Forma Financial Information. SSARS No. 21 is effective for reviews, compilations, and engagements to prepare financial statements for periods ending on or after December 15, 2015 but early implementation is permitted. This statement is a standalone SSARS and is not a codification of all clarified SSARSs. This statement has been codified in AICPA Professional Standards, which contains a complete codification of Statements on Standards for Accounting and Review Services. Practitioners are advised to use the codified version of this SSARS as they prepare to evaluate and update their methodologies, and prepare for changes precipitated by the clarity project.

Internet research can be quick, easy, and abundant — but also challenging. Research sites sometimes come and go, and sources can be questionable. The Business Research Solutions Series provides comprehensive business and financial research reference guides and online training manuals to bridge a major gap in the field of online research methodology. This resourceful and innovative series of reference guides teaches readers how to approach a research problem, how to select the best online sources, and how to effectively use these sources. It also suggests alternate low-cost solutions for many standard questions and problems. A must-have for professionals involved in company research, these invaluable tools provide step-by-step advice on how to analyze, interpret, and present data for informed decision-making. Introduction to Online Accounting and Financial Research offers thorough coverage of effective online research practices for the financial arena. The guide begins by helping readers gain a solid understanding of the basics — associations, standards, challenges — in the areas of accounting and finance before progressing to steps for defining the research problem and developing strategies for effective research. Helping readers develop effective research strategies, the book introduces key sources, discusses free vs. for-pay options, as well as covers reliability and reputability issues. Like all the titles in the Business Research Series, this book is conveniently divided into four sections containing a number of business research applications that can be used for both in-house research training and reference.

Do you perform engagements in accordance with generally accepted government auditing standards (GAGAS) as presented in the Yellow Book? This book provides an excellent baseline of information for accountants to better understand governmental auditing foundations,

ethics, general audit standards, financial audit standards, attestation engagement standards, and fieldwork and reporting standards for performance audits. It is essential that all auditors planning and conducting audits in accordance with GAGAS understand and discern these concepts and standards in executing their responsibilities. In addition to a chapter covering the key points in a Uniform Guidance compliance audit, this book also includes content from AICPA Guide Government Auditing Standards and Single Audits related to a Uniform Guidance compliance audit, including appendixes for example auditor's reports and sampling guidance. This book will prepare you to do the following: Identify the types of engagements that are performed under Government Auditing Standards. Recognize Yellow Book requirements related to independence, peer review, and more. Identify the additional requirements for performing a financial audit under GAGAS. Recognize the additional GAGAS reporting requirements for financial audits. Recall the requirements for performing attestation engagements and performance audits under the Yellow Book.

Want to ensure effective and efficient execution of the Risk Assessment Standards? AICPA has the resources you need: Audit Risk Assessment Tool (available online only) Assessing and Responding to Audit Risk in a Financial Statement Audit - AICPA Audit Guide The Audit Risk Assessment Tool walks an experienced auditor through the risk assessment procedures and documents those decisions necessary to prepare an effective and efficient audit program. Designed to be used in lieu of cumbersome checklists, it provides a top down risk-based approach to the identification of high risk areas to allow for appropriate tailoring of audit programs which will result in audit efficiencies. The tool is available in the Online Subscription format and includes access to the full Risk Assessment Guide. The AICPA Audit Guide Assessing and Responding to Audit Risk in a Financial Statement Audit is the definitive source for guidance on applying the core principles of the risk-based audit methodology that must be used on all financial statement audits. This guide is written in an easy-to-understand style that enables auditors of all experience levels to find answers to the issues they encounter in the field. Unique insights, examples and a comprehensive case study clarify critical concepts and requirements. Disclaimer This Audit Risk Assessment Tool is designed to provide illustrative information with respect to the subject matter covered and is recommended for use on audit engagements that are generally smaller in size and have less complex auditing and accounting issues. It is designed to help identify risks, including significant risks, and document the planned response to those risks. The Audit Risk Assessment Tool should be used as a supplement to a firm's existing planning module whether in a firm-based or commercially provided methodology. The Audit Risk Assessment Tool is not a complete planning module. The AICPA recommends the Audit Risk Assessment Tool be completed by audit professionals with substantial accounting, auditing and specific industry experience and knowledge. For a firm to be successful in improving audit quality and efficiencies, it is recommended that a 5+ years experienced auditor completes the Audit Risk Assessment Tool or the engagement team member with the most knowledge of the industry and client (often Partner in small/medium firms) provides insight to whomever is completing the ARA Tool. The AICPA recommends this should not be delegated to lower-level staff and just reviewed – it should be completed under the direction of the experienced auditor (if you delegate to inexperienced auditor you will be at risk for less effectiveness and efficiencies because the tool is intended to be completed by an experienced auditor). The Audit Risk Assessment Tool does not establish standards or preferred practices and is not a substitute for the original authoritative auditing guidance. In applying the auditing guidance included in this Audit Risk Assessment Tool, the auditor should, using professional judgment, assess the relevance and appropriateness of such guidance to the circumstances of the audit. This document has not been approved, disapproved, or otherwise acted on by a senior committee of the AICPA. It is provided with the understanding that the staff and publisher are not engaged in rendering legal, accounting, or other professional service. All such information is provided without warranty of any kind.

Need assistance in understanding and applying the special considerations required in a single audit? This 2019 Audit Guide is an indispensable resource for auditors performing Yellow Book and Uniform Guidance compliance audits. Based on Government Auditing Standards, 2011 Revision, this new edition provides up-to-date information and expert guidance on single audits and Uniform Guidance compliance audit requirements. It includes example auditor reports for both the reporting required under Government Auditing Standards and the Uniform Guidance compliance audit. Key features include: Understand the complexities of Government Auditing Standards, including the requirements related to auditor independence. Gain an understanding of the requirements for performing a Uniform Guidance compliance audit, including major program determination. Understand the unique audit areas related to a compliance audit of federal awards, including internal control over compliance for major programs. Properly report on the single audit using the illustrative auditor's reports for both the financial statement audit performed under Government Auditing Standards and the compliance audit performed under the Uniform Guidance. AICPA Audit Guides are developed and updated to provide guidance and tools for practitioners as they perform audit engagements. The AICPA Audit Guide Analytical Procedures, updated as of March 1, 2012, includes relevant guidance contained in applicable standards and

other technical sources. The guide summarizes applicable requirements and practices, and delivers "how-to" advice for handling analytical procedures used in audits. The included case study illustrates the use of analytical procedures in planning and substantive testing, utilizing trend analysis, ratio analysis, reasonableness testing, and regression analysis. The appendices include a variety of examples of financial ratios and a comparison of the key provisions of the Risk Assessment Standards. This AICPA Audit Guide has been fully conformed to reflect the new standards resulting from the Clarity Project. Fully incorporating the clarified auditing standards into this year's edition of the guide enables auditors to further their understanding of these recently issued auditing standards, as well as begin updating their audit methodologies, resources, and tools prior to the clarified auditing standards' effective date. Additionally, this approach gives auditors the opportunity to review and understand the changes made by their third-party audit methodology and resource providers, if applicable. The clarified auditing standards are effective for audits of financial statements for periods ending on or after December 15, 2012 (calendar year 2012 audits). Auditors should continue to use the previous edition of this guide (2008 edition) until the clarified auditing standards become effective for the auditors' engagements.
