I bet you've never even heard of the Stuarts. They don't sound very terrible, do they? But did you know some slimy Stuarts ate toads, snails and fleas?

"Denton and his quirky friends are laugh-out-loud funny, even as their riotous adventures raise deeper questions about science, government control, life, and death." -- SLJ You only live once—unless you're Denton Little! Denton Little lives in a world exactly like our own except that everyone knows the day on which they will die. The good news: Denton has lived through his deathdate. Yay! The bad news: He's being chased by the DIA (Death Investigation Agency), he can never see his family again, and he may now die anytime. Huh. Cheating death isn't quite as awesome as Denton would have thought. . . . Lance Rubin's debut novel, *Denton Little's Deathdate*, showed readers just how funny and poignant imminent death could be. Now in this sequel, he takes on the big questions about life. How do we cope, knowing we could die at any time? Would you save someone from dying even if they were a horrible person? Is it wrong to kiss the girl your best friend is crushing on if she's really into you instead? What if she's wearing bacon lip gloss? Praise for *Denton Little's Deathdate*: "Highly original, fantastically entertaining, and laugh-out-loud funny, *Denton Little's Deathdate* is a wild romp through a night like no other." —Jennifer E. Smith, author of *The Geography of You and Me* "Let's all pray the grim reaper is even half as witty (and wise) as the deadly talented Lance Rubin. Till then: skip this book at your own peril." —Tim Federle, author of *Better Nate than*

Based on the true history of the uncrowned kings of Sicily: the story of a family, restless and ambitious, shrewd and determined to be richer and more powerful than anybody else. In this grand, sweeping epic inspired by the real lives of history-making titans, international best-selling author Stefania Auci brings to life the dark secrets, the loves and betrayals, and the cruel acts of revenge that marked the Florio family’s century of influence. The Florios arrive in Sicily, with nothing but the clothes on their back after an earthquake destroys their hometown. Against all odds, the family begins anew despite the looming Napoleonic wars and devastating plagues. But when Vincenzo is spurned by his aristocratic lover, he vows to avenge his honor by becoming the wealthiest man in Italy. Sacrificing love and family, he strives to buy what cannot be his by birth. Not to be outdone by the men, the Florio women unapologetically demand their place outside the restraints of caring mothers, alluring lovers,

or wounded wives. Giulia, though only a mistress, is fiercely intelligent and runs the empire from the shadows. Angelina, born a bastard, charts her own future against the wishes of her father. In this epic yet intimate tale of power, passion, and revenge, the rise and fall of a family taps into the universal desire to become more than who we are born as.

Accepting Dante's prophetic truth claims on their own terms, Teodolinda Barolini proposes a "detheologized" reading as a global new approach to the Divine Comedy. Not aimed at excising theological concerns from Dante, this approach instead attempts to break out of the hermeneutic guidelines that Dante structured into his poem and that have resulted in theologized readings whose outcomes have been overdetermined by the poet. By detheologizing, the reader can emerge from this poet's hall of mirrors and discover the narrative

techniques that enabled Dante to forge a true fiction. Foregrounding the formal exigencies that Dante masked as ideology, Barolini moves from the problems of beginning to those of closure, focusing always on the narrative journey. Her investigation--which treats such topics as the visionary and the poet, the One and the many, narrative and time--reveals some of the transgressive paths trodden by a master of mimesis, some of the ways in which Dante's poetic adventuring is indeed, according to his own lights, Ulyssean.

In this fresh approach to the history of the Black Death, John Hatcher, a world-renowned scholar of the Middle Ages, recreates everyday life in a mid-fourteenth century rural English village. By focusing on the experiences of ordinary villagers as they lived - and died - during the Black Death (1345 - 50 AD), Hatcher vividly places the reader directly into those tumultuous years and describes in fascinating detail the day-to-day existence of people struggling with the tragic effects of the plague. Dramatic scenes portray how contemporaries must have experienced and thought about the momentous events - and how they tried to make sense of it all.

"[A] tart, funny, lurid little bomb of a book. It's all p.c., of course, but not at all predictable, and a lot of righteous information gets dispersed in record time."  
-- BUST Magazine We were Guerillas before we

were Gorillas. From the beginning, the press wanted publicity photos. We needed a disguise. No one remembers, for sure, how we got our fur, but one story is that at an early meeting, an original Girl, a bad speller, wrote 'Gorilla' instead of 'Guerilla.' It was an enlightening mistake. It gave us our mask-ularity. Ever wonder about the abundance of naked male statues in the Classical section of your favorite museum? Did you know medieval convents were hotbeds of female artistic expression? And how did those "bad boy" artists of the twentieth century make it even harder for a girl to get a break? Thanks to the Guerrilla Girls, those masked feminists whose mission it is to break the white male stronghold over the art world, art history--as we know it--is history. Taking you back through the ages, the Guerrilla Girls demonstrate how males (particularly white males) have dominated the art scene, and discouraged, belittled, or obscured women's involvement. Their skeptical and hilarious interpretations of "popular" theory are augmented by the newest research and the expertise of prominent feminist art historians. "Believe-it-or-not" quotations from some of the "experts" are sprinkled throughout, as are the Guerrilla Girls' signature masterpieces: reproductions of famous art works, slightly "altered" for historic accuracy and vindication. This colorful reinterpretation of classic and modern art, as outrageous as it is visually arresting, is a much-

needed corrective to traditional art history, and an unabashed celebration of female artists.

In this new and illuminating interpretation of Ambrose, bishop of Milan from 374 to 397, Neil McLynn thoroughly sifts the evidence surrounding this very difficult personality. The result is a richly detailed interpretation of Ambrose's actions and writings that penetrates the bishop's painstaking presentation of self. McLynn succeeds in revealing Ambrose's manipulation of events without making him too Machiavellian. Having synthesized the vast complex of scholarship available on the late fourth century, McLynn also presents an impressive study of the politics and history of the Christian church and the Roman Empire in that period. Admirably and logically organized, the book traces the chronology of Ambrose's public activity and reconstructs important events in the fourth century. McLynn's zesty, lucid prose gives the reader a clear understanding of the complexities of Ambrose's life and career and of late Roman government.

Marble is one of the great veins through the architectural tradition and fundamental building block of the Mediterranean world, from the Parthenon of mid-fifth century Athens, which was constructed of pentelic marble, to Justinian's Hagia Sophia in Constantinople and the Renaissance and Baroque basilica of St. Peter's in the Vatican. Scholarship has done much in recent years to reveal the ways

and means of marble. The use of colored marbles in Roman imperial architecture has recently been the subject of a major exhibition and the medieval traditions of marble working have been studied in the context of family genealogies and social networks. In addition, architectural historians have revealed the meanings evoked by marble revetted and paved surfaces, from Heavenly Jerusalem to frozen water. The present volume builds upon the body of recent and emerging research - from antiquity to the present day - to embrace a global focus and address the more unusual (or at least unexpected) uses, meanings, and aesthetic appeal of marble. It presents instances where the use of marble has revolutionized architectural practice, suggested new meaning for the built environment, or defined a new aesthetic - moments where this well-known material has been put to radical use.

During the building of an apartment house on the Via Latina in Rome in 1955 a small Christian catacomb was brought to light, a chance archaeological discovery that turned out to be a startling revelation. The architectural form and painted decoration of the catacomb were much remarked--not only were they exceptionally lavish, they also proved exceedingly difficult to fit into the traditional picture of the development of Christian art in late antique Rome. The Via Latina Catacomb: Imitation and Discontinuity in Fourth-Century Roman Painting is the first in-depth study of the monument in terms of its structure and function. A single question that arises from the monument itself serves to focus the discussion: Why was the last chamber in the catacomb made as a copy of one of the first? But the question is also one that demands a comprehensive approach. Thus the catacomb is examined with regard to its construction, plan, and architectural form, as well as its style of painting and imagery.

The scientific debates on border crossings and cultural exchange between Judaism, Christianity, and Islam have much increased over the last decades. Within this context, however, little attention has been given to the biblical Exodus, which not only plays a pivotal role in the Abrahamic religions, but also is a master narrative of a border crossing in itself. Sea and desert are spaces of liminality and transit in more

than just a geographical sense. Their passage includes a transition to freedom and initiation into a new divine community, an encounter with God and an entry into the Age of law. The volume gathers twelve articles written by leading specialists in Jewish and Islamic Studies, Theology and Literature, Art and Film history, dedicated to the transitional aspects within the Exodus narrative. Bringing these studies together, the volume takes a double approach, one that is both comparative and intercultural. How do Jewish, Christian and Islamic texts and images read and retell the various border crossings in the Exodus story, and on what levels do they interrelate? By raising these questions the volume aims to contribute to a deeper understanding of contact points between the various traditions.

Unique among early modern artists, the Baroque painter, sculptor, and architect Gianlorenzo Bernini was the subject of two monographic biographies published shortly after his death in 1680: one by the Florentine connoisseur and writer Filippo Baldinucci (1682), and the second by Bernini's son, Domenico (1713). This interdisciplinary collection of essays by historians of art and literature marks the first sustained examination of the two biographies, first and foremost as texts. A substantial introductory essay considers each biography's author, genesis, and foundational role in the study of Bernini. Nine essays combining art-historical research with insights from philology, literary history, and art and literary theory offer major new insights into the multifarious connections between biography, art history, and aesthetics, inviting readers to rethink Bernini's life, art, and
