Esref Kuşçubasi remains controversial in Turkey over fifty years after his death. Elsewhere the man sometimes called the "Turkish Lawrence of Arabia" is far less known but his life offers fascinating insights into the traumatic, increasingly violent struggles that ended the Ottoman Empire and ushered in the modern Middle East. Drawing on Esref's private papers for the first time, these pages tell the story of the making of a headstrong "self-sacrificing" officer committed to defending the empire's shrinking borders. Esref took on a string of special assignments for Enver Pasha, the rapidly rising star of the Ottoman military, first in Libya against the Italians, then in the Balkan Wars and World War I, before being captured by the forces of the Arab Revolt and turned over to the British and imprisoned on Malta. Released in 1920, he joined the national resistance movement in Anatolia but fell out with Mustafa Kemal's leadership and switched sides, earning him banishment from the Turkish Republic at its founding and exile until the 1950s. Never far from the action or controversy, Esref's dynamic story provides an important counterpoint to the standard narrative of the transition from empire to nation state.

Reveals the triumphs and struggles of contemporary Christian congregations to express female imagery of God in worship. Many Christians do not know the Bible contains female images of God because they have never heard nor seen them in church. In *Women, Ritual, and Power*, Elizabeth Ursic gives the reader insight into four Christian communities that worship God with female imagery, both as a worship focus and a community identity. These Methodist, Presbyterian, Lutheran, and Catholic congregations operate within their established

church denominations and are led by either ordained Protestant ministers or vowed Catholic sisters. Because expressing God-as-She can expose strident claims for maintaining God-as-He, this book shows not only how patriarchy continues to operate in churches today, but also how it is being successfully challenged through liturgy. “Women, Ritual, and Power is an important contribution to the theological world. Elizabeth Ursic sheds light on what has enabled churches to include female images for the divine and provides multiple narratives of the negative reactions to such images. As she displays how gender is understood in Christian worship with evidence that some churches do include feminist imagery, the continuing presence of patriarchy is also revealed. The book is basically about the constructive function of the inclusion of feminine images for all. One of the main reasons we need this book is that Ursic perceives there is a much wider/larger group of Christians who would love to have more feminist images than is recognized in churches and church practices.” — Mary McClintock Fulkerson, author of *Changing the Subject: Women’s Discourses and Feminist Theology*

"Based on the spontaneous conversations of shantytown youth hanging out on the streets of their neighborhoods and interviews from the comfortable living rooms of the middle class, Race and the Brazilian Body asks how racial ideas about the superiority of whiteness and the inferiority of blackness continue to play out in the daily lives of Rio de Janeiro's residents. This ethnographic account describes how cariocas (Rio residents) "read" the body for racial signs, looking beyond phenotype to pay careful attention to cultural and linguistic practices, including

munchies on prime-time television, one thing is clear: Pot has fully shed its stoner image. In this deeply reported journey into the new world of legal cannabis, award-winning reporter Heather Cabot takes readers on the road with Snoop Dogg and his business partner Ted Chung as they roll out the star's own brand of bud; to California wine country, where chefs and vintners are ushering in a new age of elevated dining; on wild adventures with marijuana mogul Beth Stavola, for whom fending off shady characters is just another day at the office; and to rural Canada to meet the Willy Wonka of Weed. Drawing on exclusive interviews with some of the biggest names in the world of cannabis, Cabot's book explores the confluence of social, economic, and political forces that have brought marijuana into the mainstream. Among them, outrage over the racial injustice of U.S. drug laws, the booming self-care industry catering to stressed-out professionals and busy parents in search of better sleep and more sex, seniors clamoring for natural alternatives to opioids to manage their aches and pains, and tens of millions of investor dollars fueling a frenetic "green rush" mentality. Patrisia Gonzales addresses "Red Medicine" as a system of healing that includes birthing practices, dreaming, and purification rites to re-establish personal and social equilibrium. The book explores Indigenous medicine across North America, with a special emphasis on how Indigenous knowledge has endured and persisted among peoples with a legacy to Mexico. Gonzales combines her lived experience in Red Medicine as an herbalist and traditional birth attendant with in-depth research into oral traditions, storytelling, and the meanings of symbols to uncover how Indigenous knowledge endures over time. And she shows how this knowledge is now being reclaimed by Chicanos, Mexican Americans and Mexican Indigenous peoples. For Gonzales, a central guiding force in Red Medicine is the principal of regeneration as it is manifested in Spiderwoman. Dating to Pre-Columbian times, the Mesoamerican Weaver/Spiderwoman--the guardian of birth, medicine, and purification rites such as the Nahua sweat bath--exemplifies the interconnected process of rebalancing that transpires throughout life in mental, spiritual and physical manifestations. Gonzales also explains how dreaming is a form of diagnosing in traditional Indigenous medicine and how Indigenous concepts of the body provide insight into healing various kinds of trauma. Gonzales links pre-Columbian thought to contemporary healing practices by examining ancient symbols and their relation to current curative

knowledges among Indigenous peoples. Red Medicine suggests that Indigenous healing systems can usefully point contemporary people back to ancestral teachings and help them reconnect to the dynamics of the natural world. Compared to the vast machinery surrounding Congress and the president, the Supreme Court is a tiny institution that can resolve only a small fraction of the constitutional issues that arise in any given year. Andrew Coan shows that this simple yet frequently ignored fact is essential to understanding how the Supreme Court makes constitutional law.

In his expansive history of documentary work in the South during the twentieth century, Scott L. Matthews examines the motivations and methodologies of several pivotal documentarians, including sociologist Howard Odum, photographers Jack Delano and Danny Lyon, and music ethnographer John Cohen. Their work salvaged and celebrated folk cultures threatened by modernization or strived to reveal and reform problems linked to the region's racial caste system and exploitative agricultural economy. Images of alluring primitivism and troubling pathology often blurred together, neutralizing the aims of documentary work carried out in the name of reform during the Progressive era, New Deal, and civil rights movement. Black and white southerners in turn often resisted documentarians' attempts to turn their private lives into public symbols. The accumulation of these influential and, occasionally, controversial documentary images created an enduring, complex, and sometimes self-defeating mythology about the

Developed in the United States in the 1980s, facial feminization surgery (FFS) is a set of bone and soft tissue reconstructive surgical procedures intended to feminize the faces of trans- women. While facial surgery was once considered auxiliary to genital surgery, many people now find that these procedures confer distinct benefits according to the different models of sex and gender in which they intervene. Surgeons advertise that FFS not only improves a trans- woman's appearance; it allows her to be recognized as a woman by those who see her. In *The Look of a Woman* Eric Plemons foregrounds the narratives of FFS patients and their surgeons as they move from consultation and the operating room to postsurgery recovery. He shows how the increasing popularity of FFS represents a shift away from genital-based conceptions of trans- selfhood in ways that mirror the evolving views of what is considered to be good trans- medicine. Outlining how conflicting models of trans- therapeutics play out in practice, Plemons demonstrates how FFS is changing the project of surgical sex

This carefully designed type test is called motivational, so it is fundamentally based on human motivation. For a more reliable indication of the Enneatype it is absolutely necessary to determine the true essential basic motivation of a person. In addition, one can use the purely psychological action and behavioral patterns of a person only conditionally, but it is more important to determine what is underlying the action; that is, the so-called intrinsic motivation. For this reason, in Enneagram circles the saying goes: The behavior is nothing - the motivation is EVERYTHING! Most of the Enneagram type tests, however, are primarily based on focusing on the behavior of a person to be typed, so that false typing will always occur. In contrast, in this Motivational Enneagram Type Test, the focus of the 100 test questions is on the

underlying motivational basic structures of personality, i.e. on the "why" of the specific behavioral and action patterns of humans. This makes it a reliable type test for determining one`s own Enneatype!
