In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data

Get Free Checking Account Transaction Register

collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at www.worldbank.org/globalindex.

Keep track of you accounts with our handy compact book. This is a great book to keep track of all your checking account transactions. A balance logbook helps you to always know an accurate balance of your account. Features: 110 pages Double-sided Non-perforated Size: 8.5 inches x 11 inches Register: Date, Description, Ref, Debit, Credit, Balance fields

A check register helps you keep a personal record of your checking account. This allows you to see and continually update your account balance, any withdrawals or deposits to your account, and transactions that have not yet hit your account. Even if you trust your bank, it's wise to keep your own records, because you might be better informed than your bank about upcoming transactions. Our checkbook register comes with: Check number: Record of check numbers Date: Date of a transaction Description: Helpful notes about a transaction Withdrawal/Debit (-): Payments, fees, and withdrawals Deposit/Credit (+): Deposits and interest Balance: Current account balance after a transaction Your check register will help you: ??Identify bank mistakes, which are rarely in your favor. ??Catch identity theft. If you see something you didn't expect, report it as quickly as possible to get full protection under U.S. law. ??Avoid bounced checks, as well as the expenses and potential problems that come with them. ??Know how much you can afford to spend, and whether you need to transfer money to your checking account. For example, you can avoid overdraft fees by moving funds from your savings account to cover upcoming expenses. ??Keep track of all your paid debts, the amounts, and the dates.
