Over the past twenty years, the study of dinosaurs has transformed into a true scientific discipline. New technologies have revealed secrets locked in prehistoric bones that no one could have previously predicted. We can now work out the color of dinosaurs, the force of their bite, their top speeds, and even how they cared for their young. Remarkable new fossil discoveries--giant sauropod dinosaur skeletons in Patagonia, dinosaurs with feathers in China, and a tiny dinosaur tail in Burmese amber--remain the lifeblood of modern paleobiology. Thanks to advances in technologies and methods, however, there has been a recent revolution in the scope of new information gleaned from such fossil finds. In *Dinosaurs Rediscovered*, leading paleontologist Michael J. Benton gathers together all of the latest paleontological evidence, tracing the transformation of dinosaur study from its roots in antiquated natural history to an indisputably scientific field. Among other things, this book explores how dinosaur remains are found and excavated, and how paleontologists read the details of dinosaurs' lives from their fossils--their colors, their growth, and even whether we will ever be able to bring them back to life. Benton's account shows that, though extinct, dinosaurs are still very much a part of our world.

*The Dinosaur Princess* is a thrilling epic fantasy adventure set in an alternative world of intrigue, beauty, brutality...and dinosaurs. *WELCOME TO PARADISE: A primordial world with every species of dinosaur, large and small. And humans, who were brought to this world on the whim of the gods. Knights ride into battle on Triceratops; their heroes lead them on T-Rexes. Karyl Bogomirskiy is one such hero. Once, he held power. Betrayed by those closest to him, he was resurrected by the Fae, magical beings native to the world, who seek to use him in their eternal battle against alien gods. Karyl just wants to be left in peace, reluctant to be anyone's tool, much less a savior. But the gods have returned to judge their human experiment and to finally rid the planet of the Fae. And while Karyl doesn't feel like a hero, he's humanity's last best hope.* *The Dinosaur Princess* is the newest epic fantasy adventure set in a world where knights ride armored dinosaurs into battle, hailed by George R. R. Martin as "A cross between Jurassic Park and Game of Thrones." *The Dinosaur Lords Series #1 The Dinosaur Lords #2 The Dinosaur Knights #3 The Dinosaur Princess* At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

(Faber Piano Adventures ). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. [View Helpful Introductory Videos Here](#)

Selected by NPR's Maureen Corrigan and The Wall Street Journal's Tom Nolan as one of the best mysteries of the year, Gazan's *The Dinosaur Feather*--which the Financial Times called "outrageously entertaining"--is a classic of modern Scandinavian noir. With keenly observed and deeply flawed characters, this scintillating thriller revolves around the controversial and fascinating connections between dinosaur and avian evolution. Biology postgraduate, PhD hopeful, and single mom Anna Bella Nor is just two weeks away from defending her thesis on the saurian origin of birds when her academic supervisor, the highly respected yet widely despised Dr. Lars Helland, is found dead in his office chair at the University of Copenhagen. The police discover a copy of Anna's thesis in the dead man's bloody lap. When the autopsy suggests that Helland was murdered in a fiendishly ingenious way, brilliant but tormented young Police Superintendent Soren Marhauge is called to investigate. As he begins the daunting task of unraveling the knotted skeins of interpersonal and intellectual intrigue among the scientists at the university, his own troubled past begins to complicate the case. Everyone involved with the investigation--from Anna Bella Nor to Helland's numerous academic rivals to Marhauge's own ex-wife, who is pregnant with her current husband's child--has something to hide, muddying the investigation and presenting the detective with the greatest professional and personal challenge of his life.

"THE ULTIMATE DINOSAUR BIOGRAPHY," hails Scientific American: A thrilling new history of the age of dinosaurs, from one of our finest young scientists. A New York Times Bestseller • Goodreads Choice Awards WINNER A BEST BOOK OF THE YEAR: Smithsonian, NPR Science Friday, The Times (London), Popular Mechanics, Science News, Library Journal, Booklist, and Chicago Public Library "A masterpiece of science writing." —Washington Post "This is scientific storytelling at its most visceral, striding with the beasts through their Triassic dawn, Jurassic dominance, and abrupt demise in the Cretaceous." —Nature

The dinosaurs. Sixty-six million years ago, the Earth's most fearsome creatures vanished. Today they remain one of our planet's great mysteries. Now *The Rise and Fall of the Dinosaurs* reveals their extraordinary, 200-million-year-long story as never before. In this captivating narrative (enlivened with more than seventy original illustrations and photographs), Steve Brusatte, a young American paleontologist who has emerged as one of the foremost stars of the field—naming fifteen new species and leading groundbreaking scientific studies and fieldwork—masterfully tells the complete, surprising, and new history of the dinosaurs, drawing on cutting-edge science to dramatically bring to life their lost world and illuminate their enigmatic origins, spectacular flourishing, astonishing diversity, cataclysmic extinction, and startling living legacy. Captivating and revelatory, *The Rise and Fall of the Dinosaurs* is a book for the ages. Brusatte traces the evolution of dinosaurs from their inauspicious start as small shadow dwellers—themselves the beneficiaries of a mass extinction caused by volcanic eruptions at the beginning of the Triassic period—into the dominant array of species every wide-eyed child memorizes today, T. rex, Triceratops, Brontosaurus, and more. This gifted scientist and writer re-creates the dinosaurs' peak during the Jurassic and Cretaceous, when thousands of species thrived, and winged and feathered dinosaurs, the prehistoric ancestors of modern birds, emerged. The story continues to the end of the Cretaceous period, when a giant asteroid or comet struck the planet and nearly every dinosaur species (but not all) died out, in the most extraordinary extinction event in earth's history, one full of lessons for today as we confront a "sixth extinction." Brusatte also recalls compelling stories from his globe-trotting expeditions during one of the most exciting eras in dinosaur research—which he calls "a new golden age of discovery"—and offers thrilling accounts of some of the remarkable findings he and his colleagues have made, including primitive human-sized tyrannosaurs; monstrous carnivores even larger than T. rex; and paradigm-shifting feathered raptors from China. An electrifying scientific history that unearths the dinosaurs' epic saga, *The Rise and Fall of the Dinosaurs* will be a definitive and treasured account for decades to come. Includes 75 images, world maps of the prehistoric earth, and a dinosaur family tree.

This scrumptious New York Times bestseller has a whole lot of kick! Dragons love tacos. They love chicken tacos, beef tacos, great big tacos, and teeny tiny tacos. So if you want to lure a bunch of dragons to your party, you should definitely serve tacos. Buckets and buckets of tacos. Unfortunately, where there are tacos, there is also salsa. And if a dragon accidentally eats spicy salsa . . . oh, boy. You're in red-hot trouble. The award-winning team behind *Those Darn Squirrels!* has created an unforgettable, laugh-until-salsa-comes-out-of-your-nose tale of new friends and the perfect snack.

In this delightful book, a small boy imagines a world where dinosaurs perform public services. "Bold lines accentuate imaginative, humorous ideas. A natural for student response: students formulate their own outcomes about what would happen if the dinosaurs returned. An overwhelming favorite in the early grades."--The Reading Teacher
