The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

#1 NEW YORK TIMES BESTSELLER • A memoir of leadership and success: The executive chairman of Disney, Time's 2019 businessperson of the year, shares the ideas and values he embraced during his fifteen years as CEO while reinventing one of the world's most beloved companies and inspiring the people who bring the magic to life. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR Robert Iger became CEO of The Walt Disney Company in 2005, during a difficult time. Competition was more intense than ever and technology was changing faster than at any time in the company's history. His vision came down to three clear ideas: Recommit to the concept that quality matters, embrace technology instead of fighting it, and think bigger—think global—and turn Disney into a stronger brand in international markets. Today, Disney is the largest, most admired media company in the world, counting Pixar, Marvel, Lucasfilm, and 21st Century Fox among its properties. Its value is nearly five times what it was when Iger took over, and he is recognized as one of the most innovative and successful CEOs of our era. In *The Ride of a Lifetime*, Robert Iger shares the lessons he learned while running Disney and leading its 220,000-plus employees, and he explores the principles that are necessary for true leadership, including: • Optimism. Even in the face of difficulty, an optimistic leader will find the path toward the best possible outcome and focus on that, rather than give in to pessimism and blaming. • Courage. Leaders have to be willing to take risks and place big bets. Fear of failure destroys creativity. • Decisiveness. All decisions, no matter how difficult, can be made on a timely basis. Indecisiveness is both wasteful and destructive to morale. • Fairness. Treat people decently, with empathy, and be accessible to them. This book is about the relentless curiosity that has driven Iger for forty-five years, since the day he started as the lowliest studio grunt at ABC. It's also about thoughtfulness and respect, and a decency-over-dollars approach that has become the bedrock of every project and partnership Iger pursues, from a deep friendship with Steve Jobs in his final years to an abiding love of the Star Wars mythology. "The ideas in this book strike me as universal" Iger writes. "Not just to the aspiring CEOs of the world, but to anyone wanting to feel less fearful, more confidently themselves, as they navigate their professional and even personal lives."

Good leaders are trailblazers, making a path for others to follow. Great leaders, however, inspire their people to reach higher, dream bigger, and achieve greater. Perhaps the most important leadership skill you can develop is the ability to provide inspiration to your team. If you inspire them to reach for the stars, they just might bring you back the moon. In this book, we have carefully selected over 500 Quotes to guide and lead you to lead. "A genuine leader is not a searcher for consensus but a molder of consensus." --Martin Luther King Jr. "A good leader leads the people from above them. A great leader leads the people from within them." --M. D. Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. "Powerful." --USA Today "Full of captivating personal anecdotes from inside the national security vault." --Washington Post "Superb,

smart, and succinct." --Forbes

Finally in paperback: the New York Times bestseller by the acclaimed, bestselling author of Start With Why and Together is Better. Now with an expanded chapter and appendix on leading millennials, based on Simon Sinek's viral video "Millennials in the workplace" (150+ million views). Imagine a world where almost everyone wakes up inspired to go to work, feels trusted and valued during the day, then returns home feeling fulfilled. This is not a crazy, idealized notion. Today, in many successful organizations, great leaders create environments in which people naturally work together to do remarkable things. In his work with organizations around the world, Simon Sinek noticed that some teams trust each other so deeply that they would literally put their lives on the line for each other. Other teams, no matter what incentives are offered, are doomed to infighting, fragmentation and failure. Why? The answer became clear during a conversation with a Marine Corps general. "Officers eat last," he said. Sinek watched as the most junior Marines ate first while the most senior Marines took their place at the back of the line. What's symbolic in the chow hall is deadly serious on the battlefield: Great leaders sacrifice their own comfort--even their own survival--for the good of those in their care. Too many workplaces are driven by cynicism, paranoia, and self-interest. But the best ones foster trust and cooperation because their leaders build what Sinek calls a "Circle of Safety" that separates the security inside the team from the challenges outside. Sinek illustrates his ideas with fascinating true stories that range from the military to big business, from government to investment banking.

Great Leadership Words of Wisdom is a collection of over 1000 quotes and sayings from global business leaders, statesmen, athletes, coaches, sages, and philosophers. The book is structured around the author's belief that great leadership is an art. This collection of quotes on great leadership will inspire your own leadership thoughts, actions, and behaviors. The many nuggets of useful leadership wisdom within these pages will also help you overcome your current and future leadership challenges and desires. The world needs more inspired leadership. Great leadership is a deliberate, conscious, and purposeful habit. Great leadership is not something reserved for senior management, business owners, and entrepreneurs. Anyone can be a great leader, if only of themselves. One does not need a title or position to be a great leader. Great Leadership Words of Wisdom will assist and motivate anyone in implementing the art of great leadership and the skills of great leaders.

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

A #1 New York Times bestselling author and leadership expert answers questions from his readers about what it takes to be in charge and make a difference. John Maxwell, America's #1 leadership authority, has mastered the art of asking questions, using them to learn and grow, connect with people, challenge himself, improve his team, and develop better ideas. Questions have literally changed Maxwell's life. In GOOD LEADERS ASK GREAT QUESTIONS, he shows how they can change yours, teaching why questions are so important, what questions you should ask yourself as a leader, and what questions you should be asking your team. Maxwell also opened the floodgates and invited people from around the world to ask him any leadership question. He answers seventy of them--the best of the best--including . . . What are the top skills required to lead people through difficult times? How do I get started in leadership? How do I motivate an unmotivated person? How can I succeed working under poor leadership? When is the right time for a successful leader to move on to a new position? How do you move people into your inner circle? No matter whether you are a seasoned leader at the top of your game or a newcomer wanting to take the first steps into leadership, this book will change the way you look at questions and improve your leadership life.

In the present book, How to Win Friends and Influence People, Dale Carnegie says, "You can make someone want to do what you want them to do by seeing the situation from the other person's point of view and arousing in the other person an eager want." You learn how to make people like you, win people over to your way of thinking, and change people without causing offense or arousing resentment. For instance, "let the other person feel that the idea is his or hers" and "talk about your own mistakes before criticizing the other person." This book is all about

building relationships. With good relationships, personal and business successes are easy and swift to achieve.

Ten years after the worldwide bestseller *Good to Great*, Jim Collins returns with another groundbreaking work, this time to ask: why do some companies thrive in uncertainty, even chaos, and others do not? Based on nine years of research, buttressed by rigorous analysis and infused with engaging stories, Collins and his colleague Morten Hansen enumerate the principles for building a truly great enterprise in unpredictable, tumultuous and fast-moving times. This book is classic Collins: contrarian, data-driven and uplifting.

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Look for Brené Brown's new podcast, *Dare to Lead*, as well as her ongoing podcast *Unlocking Us!* **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership** is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 500 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

How we feel about anything is shaped by the meaning we attach to it. The words you consciously or

unconsciously select to describe a situation immediately change what it means to you and thus how you feel. "Language shapes our behavior and each word we use is imbued with multitudes of personal meaning. The right words spoken in the right way can bring us love, money, and respect, while the wrong words-or even the right words spoken in the wrong way-can lead to a country to war. We must carefully orchestrate our speech if we want to achieve our goals and bring our dreams to fruition." -Dr. Andrew Newberg, Words Can Change Your Brain Throughout human history, great leaders have used the power of words to transform our emotions, to enlist us in their causes, and to shape the course of destiny. As Jim Rohn always said there are 5 major pieces of life: Philosophy, Attitude, Activity, Result, and Lifestyle. And to create any change in life you must start by refining your philosophy. You cannot change your destination overnight, but you can change your direction overnight. These quotes are collected in such a way that they will help you to refine your philosophy. Rejecting the belief, common among politicians, that all would be well in society if only the public sector operated more like the private sector, author Jim Collins sets out a radically new approach to creating successful hospitals, police forces, universities, charities, and other non-profit-making organisations. In the process he rejects many deep-rooted assumptions: that somehow it's possible to measure social bodies in purely financial terms; that they can be managed like traditional businesses; that they can be transformed simply by throwing money at them. Instead he argues for radical new attitudes and strategies, using the analytical approach and clear thinking that lie at the heart of Good to Great.

As a serial entrepreneur, Kevin Kruse has seen time and again that the leadership practices that actually work are the opposite of what is commonly taught and implemented. Close Your Open Door Policy shows how a contrarian approach can be a better, faster, and easier way to succeed as a leader. Chapter by chapter, Kruse focuses on a piece of popular wisdom, then shows with real-world case studies and quantitative research that the opposite approach will lead to better results, encouraging leaders to play favorites, stay out of meetings, and, of course, close their open doors.

Great leadership isn't a mystery, but a skill that can be learned. Throughout your life, you've always recognized "it" when you saw it--that indescribable, appealing quality that tells you loud and clear this person is a leader, someone you should trust, follow, and learn from. And you've always told yourself, if only you had that "it factor" inside you that could inspire, motivate, and lead others in the same way. Well, you do . . . and you can! Nobody--not even the greatest you have ever seen--comes into the world a natural leader. But somewhere along the way, these people who entered the world in the same you did transformed into the kind of magnetic individuals who inspire others to follow their lead.

Success expert Brian Tracy has spent years studying the world's greatest leaders and believes that everyone has it inside them to: Inspire trust, confidence, and loyalty Instill a sense of meaning and purpose in your organization Tap into the motivation and enthusiasm that compels others to commit to your vision Clearly communicate goals and strategies and gain buy-in Build winning teams Elicit extraordinary performance from ordinary people Become the person seen as most likely to lead the organization to victory And more Don't fall for the lie that says some are born leaders and the rest of us are simply their followers. You are just as capable as anyone! Packed with practical, proven methods, Leadership, a indispensable little guide will help you unlock your leadership potential.

Meet a genuine American folk hero cut from the homespun cloth of America's heartland: Sam Walton, who parlayed a single dime store in a hardscrabble cotton town into Wal-Mart, the largest retailer in the world. The undisputed merchant king of the late twentieth century, Sam never lost the common touch. Here, finally, inimitable words. Genuinely modest, but always sure of his ambitions and achievements. Sam shares his thinking in a candid, straight-from-the-shoulder style. In a story rich with anecdotes and the "rules of the road" of both Main Street and Wall Street, Sam Walton chronicles the inspiration, heart, and optimism that propelled him to lasso the American Dream.
