Discover Your Soul Potential: Using the Enneagram to Awaken Spiritual Vitality shows how to use the Enneagram as a gateway into the full potential of your soul. With it, you can live with simplicity, clarity and compassion; you will feel inspired to create a new partnership between the ordinary and EXTRAordinary sides of your personality. Authors Kathy Hurley and Theodorre Donson combine insights from mystical traditions with contemporary psychology and their intimate knowledge of the Enneagram to provide this tool for ongoing growth. As part of their life quest to help people live from the power of their own souls, they explain how spiritual vitality can be the privilege, inheritance and responsibility of every human being. On our spiritual journey it seems our hearts yearn for us to know who we are, and the Enneagram is the clearest, most accurate method of understanding the personality traits of ourselves and others. It is based on the theory of three centres of intelligence: Intellectual, Relational and Instinctual, or more commonly referred to as Thinking, Feeling and Doing. Our personality is a unique configuration of the three capacities inherent in every person. Because of its practical approach, this groundbreaking book makes spiritual vitality easily accessible to all.

From a master biographer and longtime Gurdjieff practitioner, a brilliant new exploration of the quintessential Western esoteric teacher of the twentieth-century. The Greek-Armenian teacher G.I. Gurdjieff was one of the most original and provocative spiritual teachers in the twentieth-century West. Whereas much work on Gurdjieff has been either fawning or blindly critical, acclaimed scholar and writer Roger Lipsey balances sympathetic interest in Gurdjieff and his

"Fourth Way" teachings with a historian's sense of context and a biographer's feel for personality and relationships. Using a wide-range of published and unpublished sources, Lipsey explores Gurdjieff's formative travels in Central Asia, his famed teaching institution in France, the development of the Gurdjieff Movements and music, and, above all, Gurdjieff's fascinating continuous evolution as a teacher. Published on the 70th anniversary of Gurdjieff's death, Gurdjieff Reconsidered delves deeply into Gurdjieff's writings and those of his most important students, including P. D. Ouspensky and Jeanne de Salzmann. Lipsey's comprehensive approach and unerring sense of the subject make this a must-read for anyone with a serious intention to explore Gurdjieff's life, teachings, and reputation.

This book is an attempt to explore various aspects of the enneagram, the symbol that G. I. Gurdjieff introduced to the modern world, and which he stated represented a complete description of the laws governing the universe. Because of the importance he attached to it, it has long intrigued followers of his teaching, and others, yet the understanding of its meanings remains very incomplete. In particular, how it relates to modern mathematical and scientific descriptions of the laws governing the universe has largely been unexplored. This book tries to find connections between these two approaches to the truth, while also recognizing and exploring the differences between knowledge based on symbols and that based on scientific theories and mathematical formulae. First published in 1975, this book has established itself as an authentic source for those interested in Gurdjieff's ideas and his approach to practical "work on oneself".

Father, Son, and Holy Spirit. In this formula that Christians recite as though on autopilot lie the secrets for healing our world, rekindling our visionary imagination, and manifesting the Kingdom of Heaven on earth. It's an astonishing claim,

but one that is supported by Cynthia Bourgeault's exploration of Trinitarian theology—and by her bold work in further articulating the deep truth it contains. She looks to the ancient concept in light of the ideas of G. I. Gurdjieff and Jacob Boehme to reveal the Trinity as the "hidden driveshaft" within Christianity: the compassionate expression of the Uncreated Reality in creation.

In *Subud the Coming New Age of Reality*, author Simon Monbaron, a self-proclaimed Subud "zealot", shares the knowledge, wisdom and experience he has gained from forty years of receiving the spiritual training known as the "latihan kejiwaan" of Subud. This massive (594 pages) tome is not just for Subud members, but for anyone who seeks the reality that lies beyond the material world. At last, here is a book I can give to friends and family members who are curious about what I do when I go off to receive the latihan, but are not yet ready to jump into the deep end to find out for themselves! For the merely curious, Monbaron's book recounts the history of Subud, and how it grew from a small group in Indonesia to a world-wide spiritual phenomenon. It tells the story of Muhammad Subuh Sumohadiwidjojo, an unremarkable government clerk whose life changed when a ball of light entered the top of his head when he was out for an evening stroll. And it discusses many aspects of the latihan, which is the central core of Subud. For those who are considering joining Subud, the Monbaron's book provides information regarding what this involves, as well as a detailed description of the Subud organization. Readers may also skip around and find out what Bapak had to say about topics as varied as suicide, feminism, reincarnation, sex, drug use, and many other questions and issues with which people struggle. Whether you use it as a reference manual, a source of fascinating anecdotes and spiritual insights, or a way to learn about a spiritual path of profound power and simplicity, Subud

"This is the first analysis of all of Gurdjieff's published internal exercises, together with those taught by his students, George and Helen Adie. It includes a fresh biographical study of Gurdjieff, with ground-breaking observations on his relationships with P.D. Ouspensky and A.R. Orage (especially, why he wanted to collaborate with them, and why that broke down). It shows that Gurdjieff was, fundamentally, a mystic, and that his contemplation-like methods were probably drawn from Mt Athos and its hesychast tradition. It shows the continuity in Gurdjieff's teaching, but also development and change. His original contribution to Western Esotericism lay in his use of tasks, disciplines, and contemplation-like exercises to bring his pupils to a sense of their own presence which could, to some extent, be maintained in daily life in the social domain, and not only in the secluded conditions typical of meditation. It contends that he had initially intended not to use contemplation-like exercises, as he perceived dangers to be associated with these monastic methods, and the religious tradition to be in tension with the secular guise in which he first couched his teaching. As Gurdjieff adapted the teaching he had found in Eastern monasteries to Western urban and post-religious culture, he found it necessary to introduce contemplation. His development of the methods is demonstrated, and the importance of the three exercises in the Third Series, Life Is Real only then, when 'I Am', is shown, together with their almost certain borrowing from the exercises of the Philokalia. "This 449-page collection of essays on the life of the famous (or infamous?) George Ivanovitch Gurdjieff could serve as the definitive tome on the eccentric and enigmatic teacher."

The enneagram is an ancient symbol that allows us to chart a process as it unfolds through time from beginning to completion, according to natural law. The knowledge pertaining to this symbol was introduced to the western world around 1913 by George Gurdjieff, who taught his students its power to provide a deeper understanding of ourselves and the universe. In this book, Dr. Irv Givot, a chiropractic physician for over thirty years, and one who has attempted to practice Gurdjieff's teaching anew each day for over thirty-five years, shows how the laws embodied in the enneagram totally govern the healing of an individual—each step of the way from the onset of an imbalance in one's health to many possible resolutions. The book also contains stories and anecdotes from Dr. Givot's own life, and those of selected patients, to illustrate in a practical way the results of this amazing property of life called healing, and to better visualize the workings of the enneagram. Dr. Givot is the author of three previous books and several articles on both healing and Inner Work. // T A B L E O F C O N T E N T S Introduction 1 The Dawning of

Scores of books exist about the life and teachings of the Russian spiritual visionary G.I. Gurdjieff (~1866-1949), yet few devote significant coverage to “the Gurdjieff Movements.” These several-hundred precise and mostly asymmetrical gestures, arranged into detailed choreographies for groups of practitioners, were designed by Gurdjieff himself. This new book reconsiders the eminent role of the Movements, revealing them as a vital yet often-neglected component in the transmission of Gurdjieff’s legacy. Van Dullemen, whose first Movements’ teacher received her instruction from Gurdjieff himself, is in a unique position to offer background, theory and first-hand experience about this subject. He is a professional musician and a long-time practitioner of the Gurdjieff work who trained in these Movements and served as a master accompanist for the practice for over thirty years. “No book can teach the Movements,” the author clearly asserts. And, he makes no such attempt

here. Far from an instruction manual, *The Gurdjieff Movements, A Communication of Ancient Wisdom*, offers invaluable insight into and greater understanding of the whys and wherefores of this fourth arm of the vast teaching that comprises Gurdjieff's complete communication: his books, his oral teachings, his music and finally his Movements. Along with fascinating stories of his own journey of discovery, van Dullemen has skillfully integrated: – autobiographical descriptions of the master Gurdjieff – interviews with direct pupils of Gurdjieff – diligent research within a wide range of firsthand sources – descriptions of the scientific, cultural and social climate during Gurdjieff's time, and – the relationship between these and his teaching. The book is also a rare accomplishment. While highly authoritative, it is nonetheless written in a direct style with clear language, making it accessible to the public at large who may have interest, but little background, in this esoteric science and practice. This Essay follows Gurdjieff's challenge: "Take the understanding of the East and the knowledge of the West - and then seek!" "Enneagram & Transformation" is dedicated to the knowledge/science of the West, by examining and describing the systemic and processual foundations of the Enneagram. The result is the acknowledgement of the Enneagram as a universal Metamodel whose rules can be applied to analyze

the most complex issues. The explanations presented in "Enneagram & Transformation" confirm what Gurdjieff taught his students in St. Petersburg: "Generally speaking, one must understand that the Enneagram is a universal symbol. All knowledge can be summarized in the Enneagram and interpreted with the help of the Enneagram. And so you can say that you only know, or understand, what you can insert into the Enneagram. What you can not fit into the Enneagram is not understood. "An additional way for further model creation is the extended form of the Enneagram based on relevant Gurdjieff's quotes - the EN-Cosmogram©.

A treatise to better understand the mathematics present in the symbol of the Enneagram, and to restore its original meaning according to the system of GI Gurdjieff. The positional decimal system and the law of seven, the meaning of zero, the mathematics hidden behind the cosmogony of the Fourth Way, the connection of the Pythagorean Tetraktys with the two fundamental laws, the genesis of time and space, the enneagram from the point of view of the sacred dances, the exact tuning of musical instruments, the meaning of the periodic decimal numbers in the law of the octave, the sacred numbers of the Pythagorean tradition, and various other topics, are presented in this work with clarity and simplicity.

An application of Gurdjieffian principles to fully and properly activate the power of language • Explains the relationship between the Gurdjieff enneagram and sacred geometry and harmonics • Shows that the objective power of language--and art and music--lies in the ability to use symbols that will mean precisely the same thing to anyone • Includes a new English translation of René Daumal's essay "The Holy War" In The Magic Language of the Fourth Way, Pierre Bonnasse applies the esoteric teachings of Fourth Way mystic G. I. Gurdjieff and the insights of initiate René Daumal to show how to fully and properly activate the power of language. Bonnasse shows how words can regain the strange magical powers they possessed in the first days of humanity, when words created the realities of what they described. This is a far cry from today's world in which even writers lament the impotent nature of language. Bonnasse uses the relationship between the Gurdjieff enneagram and sacred geometry and harmonics to reveal the power given to words by the notes of the scale. He shows not only how to discover the objective power of words but also how to apply the relationship between language and living to maximum effect. He explains that the objective power of language--and art and music--lies in the ability to use symbols that will mean precisely the same thing to anyone. The Magic Language of the Fourth Way serves as a clear and generous

A fresh vision on Gurdjieff's most important symbol - the Enneagram - used nowadays in all fields of life is offered by the brilliant author of The Mythology of the Energy, Mr. Adrian Mirel Petrariu, Ph.D. The information presented in this book is unique and the reader will have the chance to understand - through clear explanations and diagrams - the origin of Gurdjieff's symbol and its intricacies in order to begin to apply it in the daily life. A must-have for any serious seeker of truth in the gurdjieffian sense and one of the most important books on this subject written in the last decade. Explains the full potential of the nine-pointed symbol first popularized by G. I. Gurdjieff and applies the insights of the enneagram to a series of topics ranging from the solar system to science fiction movies

In this new, general introduction to the Enneagram, Rohr and Ebert show that the Enneagram was developed in Egypt by the Desert Fathers and rediscovered by a Franciscan missionary to the Moslems at the turn of the 14th century.

Over one hundred years ago in Russia, G. I. Gurdjieff introduced a spiritual teaching of conscious evolution—a way of gnosis or “knowledge of being” passed on from remote antiquity. Gurdjieff’s early talks in Europe were published in the form of chronological fragments preserved by his close followers P. D. Ouspensky and Jeanne de Salzmann. Now these teachings are presented as a comprehensive whole, covering a variety of subjects including states of consciousness, methods of self-study, spiritual work in groups, laws of the cosmos, and the universal symbol known as the Enneagram. Gurdjieff respected traditional religious practices, which he regarded as falling into three general categories or “ways”: the Way of the Fakir, related to mastery of the physical body; the Way of the

Monk, based on faith and feeling; and the Way of the Yogi, which focuses on development of the mind. He presented his teaching as a “Fourth Way” that integrates these three aspects into a single path of self-knowledge. The principles are laid out as a way of knowing and experiencing an awakened level of being that must be verified for oneself.

An important book on liberating ourselves from the state of “waking sleep” in which we live our lives, as taught by one of the most influential spiritual teachers of the 20th century As the closest pupil of the charismatic spiritual master G. I. Gurdjieff (1866–1949), Jeanne de Salzmann was charged with carrying on his teachings of spiritual transformation. Known as the Fourth Way or “The Work,” Gurdjieff’s system was based on teachings of the East that he adapted for modern life in the West. Now, some twenty years after de Salzmann's death, the notebooks that she filled with her insights over a forty-year period (and intended to publish) have been translated and edited by a small group of her family and followers. The result is this long-awaited guide to Gurdjieff's teaching, describing the routes to be traveled and the landmarks encountered along the way. Organized according to themes, the chapters touch on all the important concepts and practices of the Work, including:

- Awakening from the sleep of identification with the ordinary level of being
- Self-observation and self-remembering •

Conscious effort and voluntary suffering • Understanding symbolic concepts like the Enneagram • The Gurdjieff Movements, bodily exercises that provide training in Presence and the awareness of subtle energies • The necessity of a "school," meaning the collective practice of the teaching in a group Madame de Salzman brings to the Work her own strong, direct language and personal journey in learning to live that knowledge of a higher level of being, which, she insists, "you have to see for yourself" on a level beyond theory and concept. De Salzman consistently refused to discuss the teaching in terms of ideas, for this Fourth Way is to be experienced, not simply thought or believed.

From the author: For many years now, I have sought out and spoken to people who actually knew Gurdjieff, and others whom I respect for their dedication to the Work. Of course I asked them questions that were important to me personally, but I also tried to find out what in the Work was most vital for them. What was, in their opinion, the most important idea, method, form, direction, meaning, and how did they weight them? Finally, what was the sense and aim of this Work? Why does it, and why should it, continue to exist? What is, as Michel de Salzman asked, the specificity of the Work? What does the Work touch and develop that the many other teachings do not? This inquiry inevitably led to trying to understand this particular phase of our Work and what is required of you and me if the Work is to evolve, that is, to

continue. This moment is connected with the whole life of the Work, yet it cannot all be lumped together. It is like building a house or raising a child; each phase must be attended to and respected. . . . As to what is most important, that is, the state of the Gurdjieff Work, and to, so-to-say "stir-up" in each reader the cognition that it is their personal duty to assure its continuation, along with some digressions into related areas that might interest him or her, that is the subject of this book. It reflects my viewpoint, nothing more and nothing less.

The Enneagram of G. I. Gurdjieff Mathematics, Metaphysics, Music, and Meaning

The main subject of this book is the relationship between sexual health and spiritual evolution. Specifically, the book focuses on Wilhelm Reich's discoveries regarding sexual health and George I. Gurdjieff's concept of spiritual evolution. The thesis is that spiritual evolution, in Gurdjieff's sense, is not possible apart from sexual health as Reich determined it. Throughout the book, Brahinsky presents an in-depth discussion on Gurdjieff's conception of the evolution of consciousness, sex, Reich's discovery of the prime source biological life energy, the fundamental laws of world creation and world maintenance, the evolution and involution of consciousness, the food of impressions and the crystallization of the higher-being bodies, and finally, sexuality and evolution. Students of Reich and Gurdjieff will acquire the knowledge they need through this

When Maurice Nicholl was studying in Zurich, he met Jung, and Ouspensky. He went on to study with Gurdjieff, and from 1931 to his death in 1953, he began at Ouspensky's request, a programme of work devoted to passing on the ideas he had received. Reissued in hard cover, these five unedited commentaries are taken from the weekly lectures and talks Nicholl gave to his students in England and which were recorded verbatim; the sixth volume is an index produced by the Gurdjieff society Washington DC. These differ from Nicholl's more polished works - they are more concerned with directly applying certain deep ideas to daily life.
