Rhetorical Grammar encourages writers to recognize and use the structural and stylistic choices available to them and to understand the rhetorical effects those choices can have on their readers. Rhetorical Grammar is a writer's grammar - a text that presents grammar as a rhetorical tool, avoiding the do's and don'ts so long associated with the study of grammar. It reveals to student writers the system of grammar that they know subconsciously and encourages them to use that knowledge to understand their choices as writers and the effects of those choices on their readers. Besides providing key strategies for revision, Rhetorical Grammar presents systematic discussions of

reader expectation, sentence rhythm and cohesion, subordination and coordination, punctuation, modifiers, diction, and other principles. Studying grammar from this rhetorical point of view defines the study of language as an intellectual exercise designed to open up students' minds to the versatility, beauty, and possibilities of language.

provides both teachers and students the ease of reference and attention to detail that have made the HARBRACE handbooks THE standard of reliability since 1941. From inside the Vatican, the book that became a modern classic on sainthood in the Catholic Church. Working from church documents, Kenneth Woodward shows how saint-makers decide who is worthy of the church's highest honor. He describes the investigations into lives of candidates, explains how claims for miracles are approved or rejected, and reveals the role politics -- papal and secular -- plays in the ultimate decision. From his examination of such controversial candidates as Archbishop Oscar Romero of El Salvador and Edith Stein, a Jewish philosopher who became a nun and was gassed at Auschwitz, to his insights into the changes Pope John Paul II has instituted, Woodward opens the door on a 2,000-year-old tradition.

In *Silence and Listening as Rhetorical Arts*, editors Cheryl Glenn and Krista Ratcliffe bring together seventeen essays by new and established scholars that demonstrate the value and importance of silence and listening to the study and practice of rhetoric. Building on the editors' groundbreaking research, which respects the power of the spoken word while challenging the marginalized status of silence and listening, this volume makes a strong case for placing these overlooked concepts, and their intersections, at the forefront of rhetorical arts within rhetoric and composition studies. Divided into three parts—History, Theory and Criticism, and Praxes—this book reimagines traditional histories and theories of rhetoric and incorporates contemporary

interests, such as race, gender, and cross-cultural concerns, into scholarly conversations about rhetorical history, theory, criticism, and praxes. For the editors and the other contributors to this volume, silence is not simply the absence of sound and listening is not a passive act. When used strategically and with purpose—together and separately—silence and listening are powerful rhetorical devices integral to effective communication. The essays cover a wide range of subjects, including women rhetors from ancient Greece and medieval and Renaissance Europe; African philosophy and African American rhetoric; contemporary antiwar protests in the United States; activist conflict resolution in Israel and Palestine; and feminist and second-language pedagogies. Taken together, the essays in this volume advance the argument that silence and listening are as important to rhetoric and composition studies as the more traditionally emphasized arts of reading, writing, and speaking and are particularly effective for theorizing, historicizing, analyzing, and teaching. An extremely valuable resource for instructors and students in rhetoric, composition, and communication studies, *Silence and Listening as Rhetorical Arts* will also have applications beyond academia, helping individuals, cultural groups, and nations more productively discern and implement appropriate actions when all parties agree to engage in rhetorical situations that include not only respectful speaking, reading, and writing but also productive silence and rhetorical listening.

What If? is the first handbook for writers based on the idea that specific exercises are one of the most useful and provocative methods for mastering the art of writing fiction. With more than twenty-five years of experience teaching creative writing between them, Anne Bernays and Pamela Painter offer more than seventy-five exercises for both beginners and more experienced writers. These exercises are designed to develop and refine two basic skills: writing like a writer and, just as important, thinking like a writer. They deal with such topics as discovering where to start and end a story; learning when to use dialogue and when to use indirect discourse; transforming real events into fiction; and finding language that both sings and communicates precisely. What If? will be an essential addition to every writer's library, a welcome and much-used companion, a book that gracefully borrows a whisper from the muse.
