Jack Reacher is about to be murdered. By a man from the future... October 2101 Rock Wahlman... Former Navy Master-At-Arms, Jack Reacher's genetic duplicate-his actual clone, produced from a blood specimen that was drawn over a hundred years ago. Recently recruited by a secret government agency, Wahlman has been sent back in time to protect Reacher from a faction called Topleft, a rogue group of time-traveling criminals determined to alter the past in an effort to make the future more profitable for themselves. You might say that Wahlman is extremely motivated. Because if Reacher is killed before the blood that was used to produce Wahlman is drawn, then it's possible that Wahlman will cease to exist. He definitely has his work cut out for him. He knows he's in Germany for a reason, but after being in a coma for three days, he can't remember exactly what that reason is. In fact, he can't even remember his own name. Set in the Reacher Universe by permission of Lee Child

Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

This Intergovernmental Panel on Climate Change Special Report (IPCC-SREX) explores the challenge of understanding and managing the risks of climate extremes to advance climate change adaptation. Extreme weather and climate events, interacting with exposed and vulnerable human and natural systems, can lead to disasters. Changes in the frequency and severity of the physical events affect disaster risk, but so do the spatially diverse and temporally dynamic patterns of exposure and vulnerability. Some types of extreme weather and climate events have increased in frequency or magnitude, but populations and assets at risk have also increased, with consequences for disaster risk. Opportunities for managing risks of weather- and climate-related disasters exist or can be developed at any scale, local to international. Prepared following strict IPCC procedures, SREX is an invaluable assessment for anyone interested in climate extremes, environmental disasters and adaptation to climate change, including policymakers, the private sector and academic researchers.

#1 NEW YORK TIMES BESTSELLER • Jack Reacher returns in another fast-moving, action-packed, suspenseful book from Lee Child. You can leave the army, but the army doesn't leave you. Not always. Not completely, notes Jack Reacher—and sure enough, the retired military cop is soon pulled back into service. This time, for the State Department and the CIA. Someone has taken a shot at the president of France in the City of Light. The bullet was American. The distance between the gunman and the target was exceptional. How many snipers can shoot from three-quarters of a mile with total confidence? Very few, but John Kott—an American marksman gone bad—is one of them. And after fifteen years in prison, he's out, unaccounted for, and likely drawing a bead on a G8 summit packed with enough world leaders to tempt any assassin. If anyone can stop Kott, it's the man who beat him before: Reacher. And though he'd rather work alone, Reacher is teamed with Casey Nice, a rookie analyst who keeps her cool with Zoloft. But they're facing a rough road, full of ruthless mobsters, Serbian thugs, close calls, double-crosses—and no backup if they're caught. All the while Reacher can't stop thinking about the woman he once failed to save. But he won't let that that happen again. Not this time. Not Nice. Reacher never gets too close. But now a killer is making it personal. Praise for Personal “The best one yet.”—Stephen King “Reacher is the stuff of myth, a great male fantasy. . . . One of this century's most original, tantalizing pop-fiction heroes . . . Child does a masterly job of bringing his adventure to life with endless surprises and fierce suspense.”—The Washington Post “Yet another satisfying page-turner.”—Entertainment Weekly “Reacher is always up for a good fight, most entertainingly when he goes mano a mano with a seven-foot, 300-pound monster of a mobster named Little Joey. But it's Reacher the Teacher who wows here.”—Marilyn Stasio, *The New York Times*
