The city-state of Venice, with a population of less than 100,000, dominated a fragmented and fragile empire at the boundary between East and West, between Latin Christian, Greek Orthodox, and Muslim worlds. In this institutional and administrative history, Monique O'Connell explains the structures, processes, practices, and laws by which Venice maintained its vast overseas holdings. The legal, linguistic, religious, and cultural diversity within Venice's empire made it difficult to impose any centralization or unity among its disparate territories. O'Connell has mined the vast archival resources to explain how Venice's central government was able to administer and govern its extensive empire. O'Connell finds that successful governance depended heavily on the experience of governors, an interlocking network of noble families, who were sent overseas to negotiate the often conflicting demands of Venice's governing council and the local populations. In this nexus of state power and personal influence, these imperial administrators played a crucial role in representing the state as a hegemonic power; creating patronage and family connections between Venetian patricians and their subjects; and using the judicial system to negotiate a balance between local and imperial interests. In explaining the institutions and individuals that permitted this type of negotiation, O'Connell offers a historical example of an early modern empire at the height of imperial expansion.

This book covers two lesser known but important members of the Italian Mafia: the 'Ndrangheta and the Sacra Corona Unita. Italian criminal organizations, in particular Mafia, are one of the most commonly researched organized crime groups, usually focusing on the Sicilian

Mafia, Cosa Nostra, or the Neapolitan Mafia, Camorra. However, Italy has other two other Mafias, one in Apulia, Sacra Corona Unita, and the other in Calabria, 'Ndrangheta. Although an extensive literature is available on Cosa Nostra and Camorra, less is known about the other two organizations, particularly their operations in the United States. Territory is one of the most important elements in the Mafia because the criminal organization operates its signoria territoriale, controlling every illegal activity in its sphere of action. This territorial power goes beyond the Italian boundaries reaching the United States of America and other non-European countries, with the mere aim of developing their drug/weapon deals and money laundering businesses. Mafia, therefore, is not a uniquely Italian phenomenon as it might appear, but a worldwide phenomenon, affecting many societies and economies. This unique volume is its interest into a field as yet completely provides new information about the 'Ndrangheta and Sacra Corona Unita written by an interdisciplinary group of Italian scholars. It covers organizational, hierarchic, and operative aspects: that is, the role that they have in politics, in their own families, in business relations in Italy and abroad. It also highlights the particular role that Cosa Nostra and Camorra had in their development. This work will be of interest to criminology researchers studying organized crime, corruption, money laundering and trafficking, as well as researchers from related fields, such as political science, economics, and international relations.

"Thought provoking and fresh - this book challenges how we think about economics." Gillian Tett, Financial Times For further information about recent publicity events and media coverage for Rethinking Capitalism please visit <http://marianamazucato.com/rethinking-capitalism/> Western capitalism is in crisis. For decades investment has been falling, living standards have stagnated or declined, and inequality has risen dramatically. Economic policy has neither reformed the financial system nor restored stable growth. Climate change meanwhile poses increasing risks to future prosperity. In this book some of the world's leading economists propose new ways of thinking about capitalism. In clear and compelling prose, each chapter shows how today's deep economic problems reflect the inadequacies of orthodox economic theory and the failure of policies informed by it. The chapters examine a range of contemporary economic issues, including fiscal and monetary policy, financial markets and business behaviour, inequality and privatisation, and innovation and environmental change. The authors set out alternative economic approaches which better explain how capitalism works, why it often doesn't, and how it can be made more innovative, inclusive and sustainable. Outlining a series of far-reaching policy reforms, Rethinking Capitalism offers a powerful challenge to mainstream economic debate, and new ideas to transform it.

Taking a fully integrated approach, the book is fully in-line with the most recent developments in the public sector environment. It draws together accounting theory and practice for each of the main areas of accounting, providing contemporary examples from a range of public sector experience which are woven into the text to illustrate the issues involved.

Leo Morris. Leo, master of Richmond town, is a powerful and unscrupulous man who will ask her to do something very particular in return for his help. And situations are never as simple as they look..."...Leo turned around, it was time to set foot in his office. He always locked himself in there from eleven p.m. into the dead of night, solving problems and meeting people. Sometimes he would also go into the club to throw some punches when needed, but he did that rarely now. Old habits die hard and when he had to solve something personally, there was no henchman who could do the job in his place. He grabbed the door handle, pulled it down, and found himself face to face with a pair of glacial eyes and a perfectly designed and symmetrical goatee with just a few strands of silver in it. If there were a prize for the most definite and precise goatee, Andy Pride would definitely win it. He was the best treasurer and public accountant in all of Virginia. There's a person who wants to see you in your office. Who the hell is it? A woman iceman answered without losing his composure and letting him get by. When Leo left the room, Andy entered to take the documents and Dante smirked. He would have loved to see his face when he saw the kind of woman who was waiting for him...

This book gives an overview of the crucial events that took place during the passage from the Ottoman to the Venetian rules in the Dalmatian hinterland during the Candian and Morean Wars in the second half of the 17th century. The hinterland of the capital city of the Venetian dual province of Dalmatia and Albania – the city of Zadar/Zara – has been used here as a case study to depict

all the changes relating to: inhabitation, the appearance of settlements, changes in the populations and migrations, the forms and models of administrative and political institutions, specific border economies and the development of Venetian border areas through trade with the Ottomans alongside agriculture in the contado. Studied here is how the city of Zadar, whose life was organised as a typical coastal community like many in the Venetian Republic along with its contado, managed to enlarge its territory and incorporate elements of Ottoman political, administrative and cultural heritage along with thousands of Ottoman Christian subjects.

Cities worldwide are experiencing the failures of water privatisation. Unequal access, broken promises, environmental hazards and scandalous profit margins are prompting municipalities to take back control of this essential service. Water 'remunicipalisation' is a new, exciting trend that this book explores at length.

Case studies analyse the transition from private to public water provision in Paris, Dar es Salaam, Buenos Aires and Hamilton, as well as look at a national-level experiment in Malaysia. The journey toward better public water illustrates the benefits and challenges of municipal ownership, while at the same time underlining the stranglehold of international finance institutions and the legacies of corporate control. The book situates these developments within larger debates

about 'alternatives to privatisation' and draws lessons from these experiences for future action in favour of public services.

In 2013 the European Commission launched its legislative proposal to create a European Public Prosecutor's Office. The proposal provoked fierce debates, politically as well as on the academic level. Many national parliaments opposed and submitted formally their grievances to the Commission. Negotiations on the proposal between Member States are still ongoing. The T.M.C. Asser Instituut held the first international conference on this unprecedented proposal. This book reflects the main results of that conference. It provides a concise background of and reasoning for the introduction of this new EU body entrusted with far reaching judicial powers disclosing important legal and policy implications. Within its hitherto limited scope the existing system of judicial cooperation between EU Member States will change fundamentally, directly affecting the functioning of national courts and public prosecutions offices. How will this evolve? This book will help answering fundamental questions involved.

The Complete Idiot's Guide to Learning Italian, 3rd Edition Penguin

You have to laugh. It is a tragedy in three movements: The Thighs, The Dick, The Fame and a counter-movement: Italy. An actress creates a physical and vocal

mask challenging a provocative, scandalous and beastly text. Words might be sung, howled and shrieked but a chant never emerges. In her naked physicality she tells a personal story in an unbroken flow of thoughts/words rendered as sounds and movement. The deafening screams being choked. Appeased. Imploded. This female onstage offers herself up in a feast, ready to be torn apart by anyone. A poetic piece born of the flesh that returns to the flesh, captured in a tightly-sealed aesthetic. Applause required. The Shit is driven by a desperate attempt to pull ourselves out of the mud, the latest products of the cultural genocide aptly described by Pasolini since the modern consumer society began taking form. A totalitarianism, according to Pasolini, even more repressive than the one of the Fascist era, because it's capable of crushing us softly. Si deve ridere. E' una tragedia in tre tempi: Le Cosce, Il Cazzo, La Fama e un controtempo: L'Italia. Nella sua nudità e intimità pubblica, l'attrice costruisce una maschera fisica/vocale sfidando un testo scandaloso, provocatorio e rabbioso. La scrittura è cantabile, ma il canto non emerge mai, ed è invece preponderante la chiave dell'invettiva, del grido, del corpo che sussulta la sua storia personale in un flusso di pensieri/parole raccontati come suoni. Strazianti. Urla assordanti e contratte. Sopite. Implose. La femmina si offre dal vivo come in un banchetto, pronta a venire sbranata da tutti. Una partitura poetica che nasce così dalla

carne e alla carne ritorna, pur dentro a una rigidissima confezione estetica. Applausi obbligatori. La Merda ha come spinta propulsiva il disperato tentativo di districarsi da un pantano o fango, ultimi prodotti di quel genocidio culturale di cui scrisse e parlò Pier Paolo Pasolini all'affacciarsi della società dei consumi. Quel totalitarismo, secondo Pasolini, ancor più duro di quello fascista poiché capace di annientarci con dolcezza. Since its world premiere in Milan in 2012, #LaMerda, written by Cristian Ceresoli and embodied by Silvia Gallerano, has brought its poetic and shocking stream of consciousness on the human condition around the world with sell-out seasons in Edinburgh, London, Berlin, Copenhagen, Adelaide and across Italy (where a subtle censorship is still applied), winning six major international awards including the coveted Scotsman Fringe First Award for Writing Excellence and The Stage Award for Best Performance. The play has already been translated and produced in Italian, English, Brazilian Portuguese, Danish, Spanish and Czech, and will shortly be translated into German and French.

Presenting the first analytical overview of the legal foundations of the EU's Common Security and Defence Policy (CSDP), this book provides a detailed examination of the law and practice of the EU's security policy. The European Union's security and defence policy has long been the focus of political scientists

and international relations experts. However, it has more recently become of increasing relevance to lawyers too. Since the early 2000s, the EU has carried out more than two dozen security and defence missions in Europe, Africa, and Asia. The EU institutions are keen to stress the security dimension of other external policies also, such as development cooperation, and the Lisbon Treaty introduces a more detailed set of rules and procedures which govern the CSDP. This book provides a legal analysis of the Union's CSDP by examining the nexus of its substantive, institutional, and economic dimensions. Taking as its starting point the historical development of security and defence in the context of European integration, it outlines the legal framework created by the rules and procedures introduced by the Treaty of Lisbon. It examines the military operations and civilian missions undertaken by the Union, and looks at the policy context within which they are carried out. It analyses the international agreements concluded in this field and explores the links between the CSDP and other external policies of the Union.

In this groundbreaking new text, Berardi argues that the story of human society is that of bifurcations. The fundamental one is always between machines for liberating desire and methods of control over the imaginary. In our time of digital mutation, technical automatisms are taking control of the social psyche.
