Suggests varied summer programs with destinations throughout the world for college-bound teens, and includes tips on choosing a program and advice for parents or guardians.

This collection explores student mobility and study abroad programmes across Europe, presenting original research on personal, linguistic, and intercultural development during study abroad experiences. The volume synthesizes work from the 2016-2020 Cost Action 15130 'Study Abroad Research in European Perspective' research network, offering a multidisciplinary account of the intersection of language learning and study abroad in Europe amidst the changing contemporary higher education landscape, as well as new directions for future research. The initial section comprises short survey chapters outlining key themes and literature, connecting traditional study abroad research with new multilingual and transnational realities. This is supported by a main section containing original empirical studies in a wide range of European contexts and a short afterword bringing together policy and pedagogical proposals. Taken together, the collection shines a light on the impact of the

internationalisation of higher education on linguistic dimensions of student mobility while including a range of lesser studied settings and languages. New insights are offered on language learning, identity, interculturality, student agency and motivation, and transnational social networks in the study abroad context. This book will be of particular interest to students, researchers and institutions interested in the intersection of language learning and study abroad, including such areas as multilingualism, higher education, and applied linguistics.

Benny Lewis, who speaks over ten languages—all self-taught—runs the largest language-learning blog in the world, *Fluent In 3 Months*. Lewis is a full-time "language hacker," someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. *Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World* is a new blueprint for fast language learning. Lewis argues that you don't need a great memory or "the language gene" to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of language learners as children.

During World War II Poland lost more than six million people, including about three million Polish Jews who perished in the ghettos and extermination camps built by Nazi Germany in occupied Polish territories. This book is the first to address the

representation of the Holocaust in Polish film and does so through a detailed treatment of several films, which the author frames in relation to the political, ideological, and cultural contexts of the times in which they were created. Following the chronological development of Polish Holocaust films, the book begins with two early classics: Wanda Jakubowska's *The Last Stage* (1948) and Aleksander Ford's *Border Street* (1949), and next explores the Polish School period, represented by Andrzej Wajda's *A Generation* (1955) and Andrzej Munk's *The Passenger* (1963). Between 1965 and 1980 there was an "organized silence" regarding sensitive Polish-Jewish relations resulting in only a few relevant films until the return of democracy in 1989 when an increasing number were made, among them Krzysztof Kieślowski's *Decalogue 8* (1988), Andrzej Wajda's *Korczak* (1990), Jan Jakub Kolski's *Keep Away from the Window* (2000), and Roman Polański's *The Pianist* (2002). An important contribution to film studies, this book has wider relevance in addressing the issue of Poland's national memory.

This book describes the experience of joblessness and unemployment in contemporary Poland. It does so by combining qualitative and quantitative data from a special project conducted in Poland after the Great Recession and the long-term Polish Panel Survey (POLPAN) to describe the lives of the jobless: women and men currently out of work, the recently re-employed, and housewives. The book uses a class and inequality perspective to investigate how these women and men became jobless, how they look for and find employment, their household and social activities, and their political participation. It contextualizes these experiences with a description of Poland's economy, labor market and employment policies after the fall of Communism and builds on the active interviewing and social constructionist approaches to explore the complex interviewer-respondent

Have you always wanted to learn how to speak Polish but simply didn't have the time? Well if so, then, look no further. You can hold in your hands one of the most advanced and revolutionary method that was ever designed for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations work—discoveries that are detailed further in this book—Nitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversant—now. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Polish, this book is not for you. However, if you need to actually hold a conversation while on a trip to Poland, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This method is designed for fluency in a foreign language, while communicating in the present tense. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. More formalized training in grammar rules, etc., can come later. You will notice in this program that occasionally the endings of certain Polish words change slightly depending on different cases. However, since this is not a grammar book, this program will not teach you these skills, nor will it teach you the nominative, accusative, genitive, dative, or instrumental

cases. The only thing this book offers are the necessary tools to become conversational in a foreign language in record time. As previously stated, though, with regards to grammar and pronunciation, you are on your own! This is one of the several, in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With Conversational Polish Quick and Easy, all you need are fifty-three pages. Learn Polish today, not tomorrow, and get started now!

The official publication of the National Conference of Black Political Scientists, this annual publication includes significant scholarly research reflecting the diverse interests of scholars from various backgrounds who use a variety of models, approaches, and methodologies. The central focus is on politics and policies that advantage or disadvantage groups because of race, ethnicity, sex, or other such factors. The research is performed in a variety of contexts and settings. This third volume includes an introductory note by the editor, Lucius J. Barker, in which he assesses the performance of the Journal in defining a "different political science" and a note by incoming editor Matthew Holden, Jr. outlining topics and agendas for future volumes. Feature articles include "Reconceptualizing Urban Violence"; "Political Science and the Black Political Experience"; "The Impact of At-Large Elections on the Representation of Black and White Women"; "State Responses to Richmond v. Croson: A Survey of Equal Opportunity Officers"; "Media in Warsaw Pact States: Explanations of Crisis Coverage"; and "Presence of Immigrants and National Front Vote: The Case of Paris

In accordance with Article 102 of the Charter and the relevant General Assembly Resolutions, every treaty and international agreement registered or filed and recorded with the Secretariat since 1946 is published in the United Nations Treaty Series. At present, the collection includes about 30,000 treaties reproduced in their authentic languages, together with translations into English and French, as necessary. The Treaty Series, where treaties are published in the chronological order of registration, also provides details about their subsequent history (i.e., participation in a treaty, reservations, amendments, termination, etc.). Comprehensive Indices covering 50-volume-lots are published separately. A Standing Order service is available for the Series and out-of-print volumes are available on microfiche.

Poland embarked on the road toward a market economy with its economic reform program of January 1990, aimed at stabilizing the macroeconomy. The productive sectors, including agriculture and related industries, will be able to build on the solid foundations of this program. But the productive sectors are difficult and time consuming to reform, and it is not always easy to identify the actions that will bring about the desired changes and differentiate them from those that slow down the reform process. Both categories often look dangerously alike. A strategic plan is needed to help orient decision-makers in the maze of complex relations and detailed actions that are constantly required. The agricultural sector, because of its social and economic importance, has

the potential to be either a brake or an engine for the reform program. The present farm crisis is only a reminder of this fact. This report is an attempt to define such a strategy for agriculture.

This report proposes a practical, country-based framework for developing good governance indicators for programmes funded by the European Union.

The Solidarity-led government which came into power in Poland in Autumn 1989 faced two enormous tasks. First, to stabilize an economy prone to hyperinflation. Second, to replace a crumbling command system in favour of a market mechanism, in a country whose market institutions had been destroyed under forty years of communist rule. This book recounts the events of this period and the course taken by the new government, and analyzes the significance of this for the transition process in Poland and elsewhere.

The transformation of food chains towards sustainability in food consumption and food security is a global issue, connected with the global challenges of poverty reduction, employment and urbanization. Combating malnutrition—undernutrition and micronutrient deficiencies—as well as overweight and obesity is an increasing problem. The main topics to be examined are the following: Ensuring sustainable food production (land and sea), sustainable diets and sustainable communities, including issues for agricultural transformation in face of increasing competition for land use; promoting healthy food systems and increasing the focus on nutrition, with multiple implications for diet quality, vulnerable groups, and informed choice; biotechnology could play an important role in climate change mitigation (e.g., nutrient-efficient plants) and adaptation (e.g., drought-tolerant plants), renewable energies, biodegradable products, rural development, and global food security; identifying the means to promote resilience, including resilience in ecosystems and in international markets; responding to climate change and

other environmental and social change. The focus should also cover issues for vulnerable groups such as mothers and children, the elderly, patients, and migrants to understand the general aspects of consumer behavior. Sustainability related to product standards and reactions of consumers to these standards are also of great importance.

Basic Polish presents concise explanations of grammar with related exercises, to build confidence in using the modern language. Assuming no previous knowledge of Polish, its step-by-step approach guarantees the reader a thorough grounding in the basics of its grammar. Each of the forty units introduces a particular grammar point and provides a variety of exercises to enable the student to practice what they have learnt. Features include: * notes on the Polish alphabet, pronunciation and stress * full answer key to all exercises * Polish-English glossary. Dana Bielec is the author of the popular Polish: An Essential Grammar, also published by Routledge.
