This Side of Paradise is the debut novel by F. Scott Fitzgerald, published in 1920. The

book examines the lives and morality of post-World War I youth. Its protagonist Amory Blaine is an attractive student at Princeton University who dabbles in literature. The novel explores the theme of love warped by greed and status seeking, and takes its title from a line of Rupert Brooke's poem *Tiare Tahiti*. The novel famously helped F. Scott Fitzgerald gain Zelda Sayre's hand in marriage; its publication was her condition of acceptance.

Contains pre-reading activities, vocabulary worksheets, comprehension questions, study guides, extension activities, essay and writing ideas, alternative assessments, quizzes, and unit tests for the study of Shakespeare's tragedy, *Macbeth*.

F. Scott Fitzgerald's *The Great Gatsby* still captivates readers with its vision of 1920s New York as a city of infinite potential, where ambition and defeat live hand in hand. This sentiment is captured, with even greater acuity, in the pages of Aben Kandel's nearly forgotten masterpiece of urban life, *City for Conquest* (1936). The source of the classic 1940s James Cagney film of the same name, this panoramic New York novel captures the complex patterns of city life, vividly evoking a metropolis of dreams and nightmares. Kandel portrays a volatile city inhabited by the aristocrat, the criminal, the idealist, the bohemian, the driven, the entrapped, and the impoverished, all equally striving "to make a dent in this town." The city itself is booming, its new constructions callously built on destruction, supplanting with equal disdain the slums of Brooklyn and the farm fields of the Bronx. This feverish microcosm of humanity inhabits a world of immense inequality where "six blocks from Wall Street, people haven't got a dime, six blocks from duplex apartments, people live in hovels" and "between the scarlet sore and the apple of the eye there lay a thick eyebrow of indifference." A literary triumph in the tradition of Stephen Crane's *Maggie: A Girl of the Streets* and John Dos Passos' *Manhattan Transfer*, and out of print for far too long, *City for Conquest* is the inaugural work of fiction in Transaction's new *Lost Urban Classics* series.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new *Suggestions for Further Reading* by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Self-deception poses longstanding and fascinating paradoxes. Philosophers have questioned whether, and how, self-deception is even possible; evolutionary theorists have debated whether it is adaptive. For Sigmund Freud self-deception was a fundamental key to understanding the unconscious, and from *The Bible* to *The Great Gatsby* literature abounds with characters renowned for their self-deception. But what exactly is self-deception? Why is it so puzzling? How is it performed? And is it harmful? In this thorough and clearly written introduction to the philosophy and psychology of self-deception, Eric Funkhouser examines and assesses these questions and more: Clarification of the conceptual background and "Basic problem" of self-deception, including Freud and Davidson and the important debate between intentionalists and motivationalists Deflationary accounts that appeal to cognitive and motivational biases, with emphasis on how motives and emotions drive self-deception Intentional self-deception and the "divided mind," including the role of the unconscious in recent psychological research Challenges that self-deception poses for philosophy of mind and psychology, especially for our understanding of intention, belief, and deception Biology and moral psychology of self-deception: Is self-deception functional or beneficial? Are the self-deceived to be held accountable? Combining philosophical analysis with the latest psychological research, and including features such as chapter summaries, annotated recommended reading and a glossary, *Self-Deception* is an excellent resource for students of philosophy of mind and psychology, moral psychology and ethics, as well as those in related fields such as psychology and cognitive science.

Nick Carraway is a young veteran and Yale graduate who moves to New York in search of work. He rents a bungalow on Long Island next door to the extravagant mansion of Jay Gatsby, a magnanimous millionaire with a mysterious past. There, he reconnects with his distant cousin Daisy and her husband Tom Buchanan, a flagrant philanderer who brings Nick to the city in order to spend time with Myrtle, his impoverished mistress. Soon, he receives an invitation to a party at the Gatsby mansion, where he gets terribly drunk and meets his neighbor, who swears they served together in the Great War. As time goes by, the two begin a tenuous friendship bolstered by stories of the war and a mutual fondness for alcohol. When Nick discovers that Gatsby and Daisy have a complicated history with one another, he starts to question not only the nature of his neighbor's kindness, but his own desire to make it big in New York. The Great Gatsby is a tragic tale of ambition and romance set in the Roaring Twenties, a decade born from war and lost to economic disaster. With a beautifully designed cover and professionally typeset manuscript, this new edition of F. Scott Fitzgerald's The Great Gatsby is a classic work of American literature reimagined for modern readers.
