The ideas and practices related to afrofuturism have existed for most of the 20th century, especially in the north American African diaspora community. After Mark Dery coined the word "afrofuturism" in 1993, Alondra Nelson as a member of an online forum, along with other participants, began to explore the initial terrain and intellectual underpinnings of the concept noting that "AfroFuturism has emerged as a term of convenience to describe analysis, criticism and cultural production that addresses the intersections between race and technology." Afrofuturism 2.0: The Rise of Astroblackness represents a transition from previous ideas related to afrofuturism that were formed in the late 20th century around issues of the digital divide, music and literature. Afrofuturism 2.0 expands and broadens the discussion around the concept to include religion, architecture, communications, visual art, philosophy and reflects its current growth as an emerging global Pan African creative phenomenon.

Terrorist's Creed casts a penetrating beam of empathetic understanding into the disturbing and murky psychological world of fanatical violence, explaining how the fanaticism it demands stems from the profoundly human need to imbue existence with meaning and transcendence.

A novel of military science fiction telling the story of Earth's annexation by an alien empire. Long considered a primitive people on a backwater planet, humanity finds itself in the middle of a war, and faced with extinction.

They hunt us. They bomb our worlds for target practice. A star cluster in the constellation of Orion rotates once every thousand years. Those who rule there have an ancient tradition: When each cycle ends, they train their fleets by spilling the blood of lesser beings. The enemy fleets are coming again. In response, the Rebel Worlds gather their starships to face the terrifying threat, and this time humanity is asked to stand with them. The last time they considered Earth, Vikings in longboats were raiding English coastlines. Today, we're less primitive. Today, we're a target. One man is chosen to command Earth's single ship in the Rebel Fleet. When the war breaks out, Leo Blake must win it... or die trying."Classic B. V. Larson. This book grabs you by the plasma cannon and won't let go. Fast adventure, fast action--and I loved the space-battles!"- S. Arthur

A dirty deal was struck. Humanity was allowed to keep three hundred rebellious worlds. In return, we declared war on a powerful enemy from beyond the frontier. A frantic build-up of forces has begun, but the task is hopeless. Seeking allies, Earth's legions are sent to BLOOD WORLD. A planet on the fringe of known space, where the people only respect masters of combat. Earth's Legions must impress them, but other alien powers have been invited to join the contest. The prize consists of billions of loyal troops--Earth must win. Fighting and dying and fighting again, the struggle is half-mad--but so is James McGill. BLOOD WORLD is the eighth book in the Undying Mercenaries Series.

Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's Space is the Place is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

Leia's newly acquired Jedi skills will be put to the ultimate test in the coming life-and-death battle. As for Luke, he will have to prove, in a lightning display of Force strength and swordplay, that he is—beyond a shadow of a doubt—the greatest Jedi Master in the galaxy.
